

Botan::TLS_Connection

```
classDiagram
    Botan::TLS_Connection <|-- Botan::TLS_Client
    Botan::TLS_Connection <|-- Botan::TLS_Server
```

The diagram illustrates a class hierarchy. At the top is the class 'Botan::TLS_Connection'. Below it are two classes, 'Botan::TLS_Client' on the left and 'Botan::TLS_Server' on the right. A horizontal line connects the two bottom classes, with a vertical arrow pointing upwards from the center of this line to the bottom of the 'Botan::TLS_Connection' box, indicating that both 'Botan::TLS_Client' and 'Botan::TLS_Server' inherit from 'Botan::TLS_Connection'.

Botan::TLS_Client

Botan::TLS_Server
